I currently possess great energy, especially as I approach graduation, to integrate into the job market and apply all that I have learned through my college studies, courses, and student activities in the real working environment. I aspire to apply my knowledge and skills in the field of React and React Native, whether through employment or training. I am driven by a strong passion to achieve new things and embark on new experiences.

Skills

- React.JS & React Native
- JS & ECMASCRIPT6
- Bootstrap
- HTML & CSS
- UI/UX
- PHP & SQL
- Leadership
- Commitment
- Communication

Education

- **Department of Information Systems, college of computer science and AI – HELWAN university**
  2020-2024

Internships

- **Intern – AL-ALFI and Ministry of Higher Education and Scientific Research**
  12/7/2023 - 19/7/2023
  - Soft skills sessions (problem solving–time management-career planning-cv writing and interview)

- **Intern - ITI React JS Summer Training**
  4/9/2023 - 18/9/2023
  - I studied React.JS from scratch during my summer training at ITI. I learned it thoroughly and reached a very good level. We trained, worked on tasks, and delivered a graduation project. I learned about the virtual DOM, real DOM, state, props, functional components vs class components, hooks, and many other concepts.

EXTRA-CURRICULAR-ACTIVITIES

- **IT Head -SCCI'23**
  8/2022-5/2023
  - Preparing content and sessions. I was responsible for forming the IT team and responsible forteaching and training them on web skills, frontend and backend. Then, together, we built the official SCCI website. generate attractive and professional website and generate new features in website like forms that calculate who is best team in conference.

- **IT Member -SCCI'22**

  10/2021 – 5/2022

  - I learned more technical skills in web development section and worked on official SCCI website with IT TEAM. I won the best IT member. technical support in 10 sessions. Got certified as best IT member.

- **TECHSOLVE Workshop Participant– SCCI'21**

  1/2021 – 5/2021

  - I learned a lot of soft skills and problem solving using software and hardware .Worked with teams from 5 workshops and learned how to be team player
